READING-STANDARD

The motorcycle that is noted for its Simplicity, Durability, Strength, Power and Speed.

The economy of the motor bicycle appeals to all. Its cost of maintenance and operation is so insignificant as to make motorcycling the most economical form of transportation known today. When you stop to consider the vast amount of recreation and pleasure obtained at such low operating cost it is not surprising that motorcycling is steadily gaining in a life favor. And when you bring to these conditions a machine that is perfect in construction, and dependable under the most severe service conditions, there can be little cause for wonder that the "R-S" Motor Bicycle has gained such a strong hold on public favor.

Tom Morris Cup Play This Afternoon

This afternoon at the Country Club the eight golfers who have been selected to represent Hawaii in the Tom Morris Cup will play off for the competition.

Eighteen holes have to be played and a start will be made at 4 o'clock sharp. The men who are to play for the islands are all in the best of form and, as a team, could not be much improved on. The eight are as follows: E. W. Campbell, J. O. Young, H. H. Walker, C. E. Edmunds, George Angus, Frank Armstrong, C. A. Hartwell and Thomas Gill.

There are no less than 125 clubs in the Western Golf Association and it would be a great feather in the cap of Hawaii if our team turned in the best card of the lot. All the clubs that enter for the Tom Morris Cup send in their cards, which have to be certified to the secretary of the Golf Association and after the cards are all compared the winners are notified by the secretary.

It is unfortunate for Hawaii that the famous donor of the cup made the stipulation that all the players for the trophy must be twenty-five years or more of age. This rule debarred our two best golfers from taking part in the competition and the team is thereby weakened a lot. However, the eight who are to play today should put up a great struggle and may be relied upon to turn in cards that will place Hawaii on the golf map for sure.

The Country Club is looking at its best just now and everything is in first class order. The recent showers have freshened the greens up and the trade winds have been favorable to good scores.

The Tom Morris Cup is to be played for on June 16 of each year and has to be won three times by the one club before it becomes the absolute property of the club.

HEALANI AND MYRTLE CLUBS
HOLD SWIMMING RACE.

On Saturday afternoon there will be a relay swimming race between the Myrtle and Healani boat clubs and everything points to a very exciting contest.

There will be six men in each team and the course will be three times across the entrance of the Bishop ship and back again—each man swimming once across the course.

The race will start at 4:30 o'clock and there is sure to be a large crowd of spectators present when the first men make their plunge. Booms will be provided for the swimmers to hold on to whilst waiting their turn to race. Both teams number some experts in their ranks and the contest is sure to be a very close one.

Carl Oss and Laurence Cunha will be on the Healani team and these two swimmers are in the best of condition at present, and should make very fine time over their share of the course.

Big League Ball To Start After All

At the baseball meeting last night the Diamond Heads, St. Louis, Punalou and Kamehameha teams were represented, and from the way things were done it looks as if there will be a season of "Big" ball after all this year.

Of course the league became defunct when it gave permission to the trustees to dispose of the fixtures and improvements at the league grounds. The only right that any team has in the league now is what may be left over after the fixtures have been sold and the debt of the trustees has been paid off.

The league, however, is not broken up, and an offer has come from a wealthy sportsman to put the league on its feet once more. A sum of \$2,000 will be advanced to the league under a new organization, and then the game will go ahead in great style.

The thousand dollars will be advanced to the new league on their note, with the fixtures of the ball ground as collateral. With this amount the new league will purchase the improvements and fixtures at the league grounds, and the money will go to the trustees.

The new league will start with an indebtedness of \$2,000, but there should be no trouble in wiping this out, as the time is ripe for good ball, and the public will flock out to the grounds, providing some life is put into the games.

There will probably be one good game on Saturdays and Sundays, and from the very start there should be a boom in big league ball. All the managers of the different teams are signing up their lists of players, and there will probably be five teams in the league. The sentiment of the meeting last night was that the game had to start right away and that all the members will keep things going in good style from the very start.

Work was begun yesterday on the new athletic grounds, and by July 4 the place will be ready for business. On Independence Day the features will be baseball, field sports and track stunts.

The race will be across the outer end of the Bishop ship, just Ewa of the Healani clubhouse.

Gun Club Shoot At Kakaako Today

This afternoon at the Kakaako traps the tenth weekly prize shoot of the Hawaiian Gun Club will be brought off at 5 o'clock. The competition stands at present just as it did some weeks ago when Porter and Harvey were tied for the first place. The shoots for the last few weeks have all been won by handicap men, and the scratch men have not had a look in. If Harvey or Porter could win one time more the present prize series would be pau and a new shoot started. It is thought likely that another handicap man will win this afternoon, and if that is the case the shoot will have to be continued another week or so.

It is intended to start bird shooting on July 1, and a new rule has been made that prohibits any man shooting more than fifty birds during the one afternoon. There is no law covering the point, but the Gun Club has instituted the rule so as to keep the useless slaughter of pigeons down to as low a point as possible.

After all, the inter-island shoot will probably not be brought off, as the Maui gunners think at the present time that they will be unable to make the trip to town. This will be a great disappointment to the local men, as a match on the same grounds would have been very interesting. However, a "wireless" match can be shot off, and that is what probably will be done in the near future. The only drawback to such a match is that here, in town, a dead calm day may exist, whilst on Maui, a high wind might be blowing, or vice versa. Still it is to be hoped that some kind of shoot be arranged, as, although local matches are good enough, there is nothing like the interest taken in them as there would be in an inter-island affair.

SHORT SPORTS.

The regatta committee will meet today and give its long-delayed decision with regard to the protested race which the Maggie won at Pearl Harbor. Alec Lyle will be on deck to give his version of the race and the matter will be thoroughly threshed out.

Eddie Fernandez wants all the soccer players to turn out tomorrow afternoon at Makiki field and have a practice game in anticipation of the Hilo trip. The Hilo cup has been won once by Oahu and once by Hawaii, and the winning team this year will take possession of the cup.

Charles J. Falk has been elected manager and A. Bushnell captain of the St. Louis baseball team. Bushnell is the well-known pitcher of the N. G. H. team.

Good Beer

is the best temperance drink in the world and the brewer stands for temperance, which means health, character, and physical and mental vigor.

Good, properly made beer contains a very small amount of alcohol and a relatively large amount of nutritive material. People sometimes forget that ginger beer contains more than one per cent. of alcohol and that Primo beer contains less than three per cent. Yet many good temperance people will drink the former and neglect the latter. It is time that the erroneous view that beer is an intoxicant should be exposed and discredited. If you want to keep strong and healthy, drink
